

High performing, audio video connectivity delivered in plastic free packaging

Aura is the new name in Audio and Visual cables and connectivity brought to you by the team at Mayflex. Aura brings a different approach to an established market.

Using over 20 years of experience we have developed products that are reliable, easy to use, enhance system performance and in an industry first, the entire product set is supplied free of single use plastic packaging.

Mayflex, a Sonepar company, are established leaders in the local area network, LAN, market having brought the Excel brand to the market over 20 years ago. We have taken this connectivity experience added to it with expertise from the AV market and the result is Aura, a one stop shop for audio and visual cables and connectivity.

Our approach when developing the brand has been two-fold, first to lead with product design and performance features and not just price, second to stay close to our principles and remove all single use plastic from the product packaging – an industry first.

So, if you are looking for HDMI cables produced with the softest, most flexible, yet durable TPE jackets, HDMI extenders with high performance resolution and long distance, or a wide range of modular Euro style outlets contact us today and experience different, experience Aura.

#### Hear the difference

Aura audio cables and connectors ensure audible clarity of the highest standard, first time, every time.

#### See the difference

# HDMI Extenders Guide

## Brief guide to the “ins” and “outs” of HDMI extenders

HDMI extenders allow HDMI signals to be sent over network type cables such as Cat6. Extenders simply allow an HDMI signal to be sent from A to B, as shown below. Typically they will support lengths of 50M to 70M.

- **Local loop out** – you can retain the local signal being extended for local TV.
- **IR Pass thru** – also support Infra Red remote control signals
- **PoC** – Power over Cable, provides power to another device over the Cat6

### V1.4 HDMI Extender

- HDMI V1.4, 4K 30Hz @ 50m or 1080P @ 80M
- Local Loop out
- Bi-Directional IR
- PoC power over CAT
- Power by 5v USB
- EDID management

### V2.0 HDMI Extender

- HDMI V2.0, 4K 60Hz 4:4:4 @ 70M
- Or 1080P @ 80M
- Local Loop out
- Bi-Directional IR
- PoC power over CAT
- Powered by 12v
- EDID management
